

# A Network That Works

With BCBS, you have access to the in-network providers within Minnesota and to the BlueCard network outside of Minnesota. The BCBS network includes all non-federal hospitals in Minnesota, and 96% of the physicians in the state, and 85% of the providers in the United States.

To see if your care providers are in the BCBS network or to find a provider, visit [www.bluecrossmnonline.com](http://www.bluecrossmnonline.com) or call 1-800-810-2583.
